Product Description

GYROOR®

Smart APP & Music Speaker

This self balancing scooter comes with an efficient APP and Music Speaker that helps you stay in control, giving you the ability to change modes, check batteries, see the real speed, Changing led light colors, adjust speed and riding with your favorite music with ease.

Super Colorful LED Lights

Bright LED headlights, Flashing wheels and Glow pedal are super fun, is also a signal of protecting yourself that makes you feel safe in dark, illuminate your evening journeys. For the hoverboard enthusiasts, the LED Flashing Lights make the hoverboard be cool device.

Sturdy & Durable

Adopting advanced motherboard system and nature rubber 250W*2 tires, ensure G11 can run smoothly and steadily. With powerful self-balancing feature, you can easily control and happily ride on it. Enjoy the most stable riding and balancing experience!

★★★★☆ **Just gonna return it, very cheap quality, don't trust it, terrible app**

Reviewed in the United States on December 25, 2020

Color: black | **Verified Purchase**

The app doesn't work. It will connect but as soon as I adjust a setting, it just pops up a message over and over saying device not connected. The app also spams you with ads which is ridiculous since we already paid a lot for the hoverboard itself. The music works but sounds terrible and it frequently starts skipping like CDs used to back in the day of portable CD players. The lights are completely useless, as soon as you adjust them, the app gets an error and doesn't go away till you close the app and reopen it. It resets the boards settings every time you turn the board on. This also goes for the speed limit setting. I also found this hoverboard much harder to ride on rougher terrain than the Razor hoverboards which have slick wheels. With the razor I could lean forward and just go, but the GYROOR only allows a very slight lean forward before it just tips over. Didn't notice any difference with self balancing on or off, or kid mode on or off. Maybe I just got a defective unit, I don't know. So I will be returning this Christmas gift, which isn't to big a deal since it's winter and she is okay waiting for a better unit. Probably won't buy another GYROOR.

Update. I took it over to my nephews house and had him try it out. He is a very seasoned hoverboard rider and he was unable to ride at more than a crawl pace. If he tried to go faster it would just tip over. It was

★★★★★ **Gyroor is the hoverboard brand to buy!**

Reviewed in the United States on December 24, 2020

Color: black | **Verified Purchase**

This is our 2nd hoverboard from Gyroor! When my son got his first hoverboard last year, everyone was envious of him, including the adults. First, the presentation of the packaging is impressive. The little note they give you is above par and shows how much they value their product. The bluetooth is very easy to set up and connect to. The sound of the speakers is awesome too and the lights on this newer model rock! They are soooo cool looking! The Gyroor app is very user friendly as well. I'm very impressed! One of our favorite things about the Gyroor hoverboards is the off road capability

and performance. My son can go through different types of terrain very easily. If you have been wanting a hoverboard, I highly recommend the Gyroor brand! You will not be disappointed!

★★★★★ Looking for the best off-road hoverboard?

Reviewed in the United States on January 9, 2021

 Color: blue | [Verified Purchase](#)

Living on a farm in a cold-weather climate with snow, it's difficult to find hoverboards that work. This hoverboard is great and the customer service is awesome! It's the perfect size for our 9 year old and she loves the colors and flashing lights. There is also a Bluetooth option! Would buy this product and from this company again.

★★★★★ Nice, powerful little hoverboard

Reviewed in the United States on January 28, 2021

 Color: black | [Verified Purchase](#)

We've had this thing for roughly a month now and my 10 year old loves it. It's fast, the bluetooth speaker connects easily and sounds great on the streets. There was a learning curve learning how to ride it, of course, but I wish I would've thought to put some duct tape or something on the handles to keep them from getting all scuffed up from the pavement. Other than that, it's cool. I'm also learning how to ride the dern thing although my balance makes it difficult for me to stay on it at 42 years old. As long as I keep trying, I'll get it just like my son did. We charge it according to the manual and so far the battery life is good. We don't leave it plugged in after the light turns green on the charger and we never leave it plugged in overnight (just in case). The tires are thick and the machine itself has good weight to it, so I feel like I really got value for what I paid for it (I shopped around for roughly 6 or 7 other brands before I decided on this one). It's definitely a keeper. I'm glad we got it.

I wouldn't buy this item ever again my daughter couldn't even try it wouldn't turn on. Then I couldn't get a hold of anyone to talk to regarding it. I'm very disappointed with Amazon and this company I have to wait a few weeks for refund to find her another one.

★★★★★ Meets Expectations, Kid loves it

Reviewed in the United States on February 17, 2021

 Color: black | [Verified Purchase](#)

Pros:

- Durable across rough terrains
- High volume on speakers
- Smooth speed transitions

Cons:

- Heavier on the ends (obviously I know)
- For my son it's just so heavy and awkward to lug around or put into its bag.

This product is everything it is supposed to be so if you're torn on whether or not to get it, consider the following two questions:
